ultrafiltration

A water dispenser, which produces cold, hot and sparkling water. It is equipped with an ultrafiltration system that purifies water.

Parameter	Dimensions [H x W x D]	Working temperature	Working pressure	Maximum TDS	Salt rejection
NEW YORK	1200 x 230 x 350 mm	4 - 38 °C	2 - 6 bar	1500 ppm	95 - 97 %

DE

Ein Wasserspender, der kaltes, heißes und Sodawasser produziert. Es ist mit einem Ultrafiltrationssystem ausgestattet, das das Wasser reinigt.

RU

Диспенсер для воды, который производит холодную, горячую и газированную воду. Установка оснащена системой ультрафильтрации.
